

in partnership with
Eden Garden Nursery

Your Child's Learning Journals

CHILDREN'S DAYCARE CENTRE

The updated Early Years Foundation Stage (EYFS) seeks to provide 'partnership working between practitioners and parents. It states that key workers should build 'relationships' with parents, keep them up-to-date with their child's progress, respond to observations that they share, involve them in assessments and support them to guide their child's development at home.

Time to change

Eden Garden Nursery has always kept parents right up to date with their child's daily routine at nursery, using paper based reporting. We've now modernised the process in keeping with the digital age

Learning Journals Online

With a multitude of ways to access information online, it makes sense to allow parents to view their child's daily reports online every evening.

That's why we've partnered with **Learning Journals**, a leading specialist in school and nursery learning record software, to bring this streamlined service to **Eden Garden Nursery**.

Security First

Your child's information is safely encrypted, stored and backed-up directly onto **Learning Journals** SSL certified servers. Each child's account has its own web address, accessible only with a secure password and PIN combination for extra security.

How it works

When your child joins the **Eden Garden** family, we send you a link to your child's account, where you can set up your unique password and PIN combination, allowing you to securely log-in whenever you need to.

For more information on Learning Journals visit: www.learningjournals.co.uk

Family sharing

You can share your log-in details with other trusted family members such as grandparent aunts and uncles so they can also stay in touch no matter where they are in the world.

Have your say

To close the gap between home learning and nursery, parents can upload photos and text in Parental Contribution boxes. You create and call these whatever you want so you can really add to your child's profile.

Better for everyone

Nursery staff are under great pressure to provide the best of care for every child. By cutting down on large amounts of hand written paperwork through the use of individual tablets, staff can instantly update records as things happen allowing them to spend more time doing what they're meant to do...caring for your child.
